
MARTIAL LAW IN TO SEND MILLIONS OF MEN TO FRONTIERS

Continued from First Page.

Troops are being sent in force to the Russian and French borders.

Germany expects her mobilization to be followed with similar action by both these countries.

With the forces of all these nations on a war footing a general European conflict is practically certain. Hopes of localizing the Austro-Serbian war have been given up.

The Russian ukase calling out more than 1,000,000 reserves increased the strain of the situation so tense that it could be nothing more, and when St. Petersburg failed to give a satisfactory explanation the Kaiser and his advisers decided that the imperial decree would have to be issued.

Before the decree was issued the red cards that tell all those subject to military call that a state of war prevails and calls upon the Kaiser's subjects to rally to the colors had been sent to every town in the empire.

All preparations for mobilization had been made before the meeting of the Imperial Council at Potsdam last night. There the imperial decree was drawn up and it was signed by the Kaiser today.

The mobilization orders sent to each district of Germany provided that all subject to military service should report.

These include all men who belong to the present military establishment, those whose terms of service have been included in the period between 1908 and the present and such recruits as reported at the last drawing and were excused.

Though denying that the Kaiser's decree meant war with Russia, government officials admitted that the situation was most grave. When asked if it indicated that a declaration of war against Russia might be expected, one attaché of the Foreign Office said:

"War is inconceivable. Russia's partial mobilization meant that similar steps should be taken by Germany for defence. Something may be done to avoid the worst, but the danger is acute."

Great crowds are parading the streets this afternoon cheering the Kaiser and Emperor Francis Joseph of Austria. The entire populace has been aroused to a high pitch of enthusiastic patriotism.

The Socialists still maintain their protests against war. The editor of the Daily Vorwärts today sent an appeal to the Kaiser to consent to a mediation conference. The paper says in an editorial:

"The Vorwärts recognizes the Kaiser's sincere endeavors to work in the interest of peace. In the present struggle neither the honor nor the welfare of the fatherland is at stake; it is a mad adventure. It is Italy's first duty to influence Austria."

Announcement as to when the official order for mobilization would be issued was withheld when efforts were made to secure information at the War Office. It was the general impression, however, that the proclamation would soon follow that decreeing a state of war.

Fall of Belgrade Denied

ATHENS, July 31.—Denial of the Austrian announcement of the fall of Belgrade is made in a dispatch received by the Serbian legation from Nish today. It stated that the Austrian forces had renewed the bombardment of the capital and that several shells fell before the royal palace in the centre of the city. The Serbians, it adds, did not reply, fearing the city might be destroyed.

THREE BIG COTTON FAILURES IN NEW YORK

Three of the biggest cotton brokerage firms in the country suspended today in New York, following the closing of the New York Stock Exchange. The New York Cotton Exchange closed (all Monday) in the Chicago Board of Trade and the New York Produce Exchange, which dropped two to seven cents and following the failures, the New York cotton market closed. In Boston, the price of four runs 20 cents a barrel, reflecting yesterday's high wheat prices. But wheat dropped on the Chicago market, and was expected to follow. In Chicago, September wheat dropped 1/2 cent to 91. May wheat dropped 1/4 cent. Wheat bulls were in a panic. The New York Produce Exchange and Wheat reported a 2 cent drop. The Chicago market grew weaker as the morning progressed and at 10 o'clock was off 10 cents from yesterday's high.

The extreme high war rates were responsible for the drop. One hundred vessels have been chartered to take wheat to foreign ports, but the rates are so high it is probable they will not sail. The American wheat sailing was cancelled, has 120,000 bushels of wheat at sea.

In case of a general war, food can only be exported to Europe. Russia would prevent this.

The New York cotton market opened active, and declines ranged from 16 points on August to 42 points for January options. Immediately after New York cotton was announced the Exchange was closed. The New York cotton brokerage firms who suspended were Honor, Howe & Wright, J. P. & Co., one of the largest firms in the country, and F. J. Fredrickson & Co. of New York.

MOVE TO STARVE GERMANS BRITISH FLEET IS READY

PARIS, July 31.—The most significant move England has yet made is the dispatch of her first or striking fleet from Portland under sealed orders. A high authority says the fleet will take up a strategic position to bottle up the North Sea on receipt of wireless instructions, which will be flashed the moment the German troops cross either the French or Russian frontiers. This would prevent the German fleet from getting into the Baltic and at the same time starve Germany into amiability.

HAMBURG CANCELS BOSTON SAILINGS

Continued from First Page.

the harbor than at sea, where it would run the risk of capture by a foreign power.

The Hamburg-American line's withdrawal of the liner forces thousands of American tourists to make other arrangements for their home-coming. Here is a list of lines that will stop and lines that will run:

Lines that will stop:
Norddeutscher Lloyd—Weekly sailings.
Holland-America—Weekly sailings.
White Star Line—Weekly sailings.
Cunard Line—Weekly sailings.
Holland-America—Weekly sailings.
Holland-America—Weekly sailings.

STARVE LONDON BANK OF ENGLAND

LONDON, July 31.—The financial terror wrought by the European war was strongly evidenced today when a run was started on the Bank of England by note holders. A long line of persons seeking cash for paper was outside the famous institution this afternoon.

Several gold and silver banks were also heavily drawn upon. They paid out partly in gold and partly in paper. The bank rate was raised to 10 per cent. This afternoon, later in the day it was announced in the Change office that the chief reason for closing the institution was to save big brokerage concerns who had business connections with the continent and who might be unable to get prompt remittance of their money. It was explained, was to prevent undue depreciation of the pound value by forced sales.

The Bank of England raising its discount rate from 3 to 4 per cent, and the prospect of another advance being made within 24 hours, with wheat soaring to a record mark, all other signs of the security market, two brokerage firms being forced to the wall over night, and others in financial difficulty, the situation today was one that was viewed with horror by the money men of Europe. The financial world must soon reject these conditions in the financial world and the shortage of money and almost ruinous discount rates, precede the failure of many of the old established firms in England and throughout Europe.

What is at a premium. It made a sensational rise of 14 a ton over night and even higher prices were offered today with little of the competition in sight. One firm bought 2,500 tons of American wheat to ship to the continent at about \$1.40 over the prices that prevailed last night.

Every effort is being made to build up reserves, but the outlook still is gloomy. It is probable that there will be no real check on the outward movement until the old orders are filled. All of this gold has been shipped to other European countries. Business at Lyons, with the exception of that done along insurance lines, is at a standstill. The country is being deluged with requests for insurance against the risk of war, but Lyons are loath to take such risks and have hoisted the premium rate to an almost prohibitive figure.

The governor of the stock exchange here announced that the July settlement for securities, due today, has been postponed until August 11, and that the settlement due August 15 also was to be made at the end of next month.

The corn market at Liverpool opened in a very excitable manner today with futures going from 12 to 14 cents over last night's close. There was every indication that the prices would continue to advance and reach record marks.

The stock exchanges at Manchester, Liverpool, Glasgow and Edinburgh were closed today.

SPAIN LIKES SERVICIA. BARCELONA, Spain, July 31.—Street manifestations in favor of Serbia were organized here today, but were dispersed by the police.

Record Shipment of Gold on "St. Louis"

NEW YORK, July 31.—The American liner St. Louis, which sailed for Europe this morning, carried the largest amount of gold ever sent from any port in the world for a single shipment. The total value of the cargo was 11,025,000 or more in \$1,000,000 over the previous record for a gold shipment.

AUSTRIA NOW SEEKS ALLIANCE WITH JAPAN

BERLIN, July 31.—Austria today endeavored to form a defensive alliance with Japan, according to a special dispatch from Vienna to the National Gazette.

The dispatch stated that Foreign Minister Berchtold held a secret conference with the Japanese ambassador for lasting two and a half hours. It carried the report that Berchtold made overtures for an alliance to become effective in case either Japan or Austria should be at war with Russia.

FRANCE ISSUES SCRIP.

PARIS, July 31.—The Bank of France today decided to issue ten and twenty franc bills to replace the coins that are being hoarded to such an extent that an absolute famine has resulted.

CANCEL SAILINGS.

NEW YORK, July 31.—Officials of the Hamburg-American line announced today that the liner Vaterland would not sail from New York Saturday and that the liner America would not leave Boston tomorrow. Their sailing time was postponed because of the European crisis.

DOWAGER TO RETURN.

LONDON, July 31.—Dowager Empress Maria Feodorovna of Russia, who had come to England intending to pass some weeks with her sister, Queen Mother Alexandra, has decided to return direct to Russia tomorrow, cancelling her usual visit to Denmark.

SERVIANS REPULSE AUSTRIANS IN DESPERATE BATTLE AT MOUNTAIN PASS

INVADERS REVEAL FIGHT; LOSSES HEAVY

NISH, Servia, July 31.—Servian troops have repulsed the invading Austrians.

Dispatches from Semendria to military headquarters here say that the Austro-Hungarian troops have failed to force the pass which would give access to the Morava valley and thus open a direct road to Nish. Desperate fighting is going on at the pass today.

Servian artillery mounted on the hills has inflicted heavy losses on attacking forces.

Lieutenant Popovitch, who distinguished himself in the war with Turkey, was among the first Servians killed.

The losses on both sides have been heavy.

Additional Austrian troops have come up to reinforce the regiments storming the Servian intrenchments about the pass.

Another victory for Servian arms is officially reported to have been won over the Austrians who crossed the Drina River from Zvornik. Two divisions of the invaders attempted to force the defile of Kovatch, which leads to Prijolje, but were beaten after an all-day engagement.

SLAVS IN AUSTRIA WOULD FIGHT SERVIA

By DR. E. D. DILLON

Special War Correspondent of the American and London Telegraphs.

VIENNA, July 31.—It has always been a puzzle to those who counted upon disunion among the Poles, Slovenians, Slovaks, Serbians and other Slav troops of the Dual Monarchy in case of war against the Slav power were making a gross miscalculation. Events have fully corroborated this forecast.

In Polish Galicia, Slovakia, Bukovina and Bosnia, unanimity and enthusiasm are characteristic of the population.

If I were asked to account for this phenomenon on psychological grounds I should ascribe it to great part to the intense indignation aroused by the crime which has placed the heart of the venerable Emperor, who is idolized by all his peoples.

From the progress of the campaign, of which we know partially nothing as yet, it is no abrupt transfer of thought to turn our attention to the chances of localizing it.

Austria is satisfied with her territorial possessions and will not utilize a victory to enlarge them.

She will go further, and actively cooperate with England in the humanitarian work of kindling a creed of hostility. Her oft expressed desire for a stable equilibrium in the Balkans, which is indispensable to normal life, and for permanent tranquillity among the Slav States.

Considering the irreconcilable interest

150,000 AMERICANS STRANDED IN EUROPE

One hundred and fifty thousand Americans are stranded in Europe face situations in their anxiety to return to America. There is the probability that any general war would catch many of them on the continent, and make it impossible for them to leave.

The difficulties are several. In the first place, the bulk of the tourists are in France, Austria and Germany, and in each of those countries, railroad travel is disorganized, the governments having ordered the roads for transporting troops.

In the second place, the outbreak of hostilities will call off the sea practically every one of the big

HOW BIG WAR WOULD AFFECT COMMERCE

With the "big war" let loose in Europe, the millions of Americans wondering the question is asking the world why and the wherefore of international law as it will about commerce on the sea during the period of war.

One of the greatest authorities on maritime law in America is Eugene F. Carver of the Boston bar, who was asked today in the Boston AMERICAN the following queries:

What vessels could not run?

What classes of freight would be safe?

What would be subject to seizure?

By EUGENE F. CARVER.

In case of a general war in Europe private property on land and sea would not be subject to seizure unless it went to some port at which blockade existed.

Passengers would not be affected in any way unless they were

travelling to or from a port at which blockade existed.

Freight would be subject to seizure unless it went to some port at which blockade existed.

Freight would be subject to seizure unless it went to some port at which blockade existed.

Freight would be subject to seizure unless it went to some port at which blockade existed.

Freight would be subject to seizure unless it went to some port at which blockade existed.

today, made preliminary arrangements for sending a first contingent of 25,000 or 30,000 men to aid the imperial forces in case Great Britain is drawn into war. The British war office has also been advised that it can rely on quick action by the Canadian militia forces.

The militia headquarters staff has prepared for mobilization and every official has been instructed as to his duties should Canada be asked to send a contingent.

The permanent forces at Halifax, Esplanade and other points have been ordered to be ready for mobilization orders, and the Halifax barracks has been ordered back from camp at Aldershot to their barracks and fort station at Halifax.

\$20,000 LOST IN THE CANCELLATION OF PEACE CONGRESS

NEW YORK, July 31.—News that the twenty-first international peace congress, scheduled to be held in Vienna from September 15 to 19, had been called off caused consternation among American peace advocates yesterday.

The cancelling of the congress means a money loss of \$20,000 to the peace societies of the world and six

months' work by a large staff of persons all in vain.

The only cheering news that came to the peace-makers all day was a report from Milwaukee that the world's Socialist Congress, also scheduled for Vienna, had been transferred to Paris and hurried up to August 8 instead of August 12 in order to protest against the Austrian conflict.

GARIBALDI WANTS TO FIGHT AUSTRIA; OFFERS HIS SERVICES TO SERVIA

NEW YORK, July 31.—General Giuseppe Garibaldi, soldier of fortune and grandson of the great Italian liberator, has offered his services to Servia. In a letter to the Servian representative here he said:

"My family and all Italians who follow the traditions of the red shirt put themselves at your government's disposal. I am preparing to return to Italy with a small number of officers, and should Italy remain neutral I intend to proceed to Servia and support it in its fight."

EUROPE RUSHES TO ARMS TO MEET SHOCK OF WAR THAT SEEMS INEVITABLE

FEVERISH ACTIVITY BY ALL BIG POWERS

By C. F. BERTELLI.

PARIS, July 31.—Short of actual declaration of war between the two groups of European powers, the situation today could not be worse.

In grim silence the whole of Europe is arming to meet the shock of war, which only a miracle can now avert. No news whatever concerning military or naval preparations carried on at this moment in every country in the Old World with feverish activity is allowed to be published on this side.

BRITISH PREPARE SECRETLY.

England this month is secretly pushing "preparation" as such as to be in position to be ready for any movement on the Teutonic rival.

The British war effort has also called urgent confidential instructions to military authorities in India, where British maintains a striking force of 50,000 in constant readiness. As for Italy, her part in the impending general war remains a mystery. The government has issued an order for the non-acceptance of telegrams from newspaper correspondents dealing with sensitive matters of troops and warships, but authorities of private news agencies are extremely hostile to Italy's participation in behalf of Austria.

FRANCE, NOW READY.

The Socialists are running a strong campaign against war and insist Italy shall stand neutral.

Meanwhile, orders have been issued that the Italian fleet continue at "Chini." All naval efforts now have been stopped, but no extraordinary measures have yet been taken with regard to the land forces.

France's preparations are in far more advanced state than in the past. Limited to absolute readiness for mobilization, and military experts believe such preparations have been carried out so thoroughly that in case of need her army could be in a war footing at all strategic points in considerably less than the seven days she is supposed to require for such work.

Not a single socialist, however, has received mobilization orders. The French government in fact is making a special point not to give Germany any incentive whatever for an incident which, however small, ordinary times, might be now a spark to set fire to the mine.

The German war had weighed heavily on and against war. These reasons may be summarized as follows:

1. Russia is growing too strong.
2. Serbia might be made a German port, leading to German domination in the East.
3. The economic tension is becoming unbearable.
4. Some tangible return must be obtained for the hundreds of millions Germany has spent on her army.
5. The social democratic movement, which becomes a menace to the Hohenzollern dynasty must be stopped.
6. France with her declining population and strong socialist

ERUPTION ON CHILD ITCHED AND BURNED

Like Water Blisters on Body, Face and Arms. Cross and Fretful. Used Cuticura Soap and Ointment. Child Was Healed.

"B. F. D. No. 2, Genoa, Vt.—"My little boy's trouble began all over his body and face and arms with water blisters. They were also on his little hands and feet. They itched and burned and he scratched and this brought more blisters. It itched and burned so the little one could not sleep nights."

"I had two treatments and they failed to help him. I got two cakes of Cuticura Soap and two boxes of Cuticura Ointment and bathed the child with the Cuticura Soap twice daily, then put the Cuticura Ointment on each time. It was only a matter of two or three weeks when the child was healed." (Signed) Mrs. Ella Hutchinson, Feb. 19, 1914.

Samples Free by Mail

For pimples and blackheads the following is a most effective and economical treatment: Gently rub the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is bound to bring relief. At other times use Cuticura Soap freely for the toilet and bath to assist in preventing inflammation, irritation and clogging of the pores. Sold throughout the world. Sample of each mailed free, with 32-p. Skin Book. Address "Cuticura," Cuticura, Dept. 7, Boston, Vt."

'War Inevitable' Lloyds Refuses Shipping Insurance

SAN FRANCISCO, July 31.—To an insurance company here asking for rates on foreign shipments, Lloyds of London called in reply today:

"No quotations possible. War believed inevitable on all sides."

A French sailing vessel, three British steamships, one Norwegian steamship, one American and one British sailing vessel and a Danish steamship, all under charter and all laden with barley consigned to British and other markets, will not sail until they obtain insurance.

for the aged monarch the Pope's urgent plea to him to save the peace of Europe, but always unsuccessfully. The Austrian military party is keeping Franz Josef completely isolated, while diplomacy is exhausted in vain attempts and hope of maintaining peace almost abandoned even by the most sanguine pacifists.

SERBS QUIT BOSTON

TO FIGHT, NOT THEIR PLACE TO KNOW WHY.

By ALBERT PROPPER.

Petrovich Ragnavitch and Anton Vlachak, are the latest absconded Serbian men of Boston to buy steamship tickets home. They left for New York today.

If I did not know why I am going to fight," Vlachak said. "The main reason is that I am a Serb, and it is the respectable thing to do. It is not my place to know why; the fathers at home know, because it is their business. I have nothing against

the paper world has made requested secret efforts to be admitted to an audience in order to lay be-

Austria or Hungary or Germany or Russia.

The fathers are calling us and we are going. We had our last meal in Boston at the home of a Hungarian woman, Mrs. Backer. She has a son living in Budapest, but she is in the American army and is going to fight in the Balkans. I suppose if I had not been in America he would not have been here. We would have to fight against him.

When the commands must be obeyed and a soldier is not good if he thinks and sympathizes. He must only obey, because the fathers know best, and they say "fight."

Joseph Vlachak, of No. 41 Canton street, Jamaica Plain, and about 400 other young men of the Austrian forces, have received letters from their mothers general to New York directing them to join themselves in readiness to report at the consulate when called. The chances are, the older men, they will not be called, because the fatherland can well take care of the situation alone.

Anton Vlachak, Hungarian special director at a hotel, said:

"Our people received notice to be ready, but I do not believe any of them will have to go except those who are officers, like my brother-in-law, Anton Gursky, who will start in a few days. The Austro-Hungarian subjects who are available for war duty in the Commonwealth are scattered. There are about 2,000 of them in Chicago and the little mills of Lowell employ about 500 of my working countrymen."

There are some 2,000 in New Bedford, 1,500 in Springfield and 1,200 in Taunton. We have been notified that those who are to leave their force and all entrance into the government through the New York consulate."

NATION RUSHES GOLD

TO NEW YORK IN FACE OF GREAT WAR DEMAND

WASHINGTON, July 31.—In the face of tremendous European demands upon New York for gold transfers will be made from the United States Treasury to the extent of \$100,000,000, the Treasury officials emphasize the preparedness of the United States to take care of the situation as to itself, of about any demand

which Europe reasonably might be expected to make on the gold supply of this country.

The United States has more gold than almost any two other nations combined. With Europe having heavily from food and manufacturing materials here, it is held almost inconceivable that a situation can arise where America will be drained of gold.

THREATEN STRIKE TO

BAR RESERVISTS ON GERMAN STEAMERS

HOBOKEN, N. J., July 31.—If Austrian and Serbian reservists are allowed to look passage on the German steamships which sail from Hoboken for European ports, German sailors and Bremen on the vessels will strike, they asserted today.

Officers and Bremen of the Vaterland, due to sail for Germany Saturday, appointed a committee to visit the ship's captain today to request him not to carry Austrians or Serbians from this country. The committee will make like representations

to the captains of the Kronprinz Wilhelm II and Prinzess Irene.

Speakers pointed out that if Germany engaged in conflict they would be called to serve, and urged German ships should not carry homeward-bound Austrians and Serbians and perhaps thereby add to a possibility of Germany becoming involved.

Mark-Down Sale

of the Famous
New England Made

"Bates-Street" Shirts

You can always find nameless shirts of unknown origin and equally unknown quality at all sorts of so-called reductions. But a mark-down sale of Bates-Street Shirts—standard in both quality and price—is an entirely different proposition.

Bates-Street Shirts—made in Lewiston, Me., and worn the country over—are the only shirts having a label of different color for each grade. There's no chance to juggle Bates-Street prices—sale time or any time. The label insures the quality and is your protection against overcharge—always.

As Boston headquarters and largest New England distributors of Bates-Street Shirts, we now offer hundreds of dozens at reduced prices—and not an old nor otherwise undesirable shirt in the whole stock. You know these good shirts, and the figures below show the exact money-savings. Nufsed.

Sizes 13½ to 18—All Sleeve Lengths

\$1.50 (Red Label)

Bates-Street Shirts

\$1.15

Newport Cords, Madras, Percales and countless designs in mercerized fabrics—soft double-cuff or stiff straight cuff models

\$2.00 (Blue Label)

Bates-Street Shirts

\$1.38

Wide variety of beautiful soft fabrics with French cuffs, and Madras, Russian Cords and other fine cloths with laundered cuffs

\$2.50 (Black Label)

Bates-Street Shirts

\$3.00 (Green Label)

Bates-Street Shirts

In this grade are found many of the highest examples of the weaver's art—the very finest \$2.50 shirts made

Pure silk broche figures on fine linen grounds, and most exquisite English Madras, either soft or stiff cuff models

MARY GIRLS ENTER NAMES FOR BIG SWIM

Fifteen-year-old Anna R. McManara of No. 425 Bennington street, East Boston, today entered her name as a contestant in the great AMERICAN Swimming Carnival to be held in the Charles River Basin on Saturday August 22.

She is regarded as a "come" by the swimming girls of East Boston, an account of the time and great with which she propels herself through the water, and her friends predict she will show so much speed in the coming carnival that she will lead her competitors.

Remember, the carnival is exclusively for girls, and that there are twenty-two days in which to enter the lists. All you have to do is to write your name on a piece of paper, giving your age and address, and mail it to "Swimming Editor, Boston AMERICAN, No. 38 Summer street, Boston."

WILL BEAT LAST YEAR.

This year's carnival bids fair to outclass former ones conducted at the basin under the auspices of the AMERICAN. The interest manifested by various swimming clubs in and about Boston in the affair indicates that the number of entries will exceed those of previous years.

The course selected for the race will be the same as last year.

Arrangements are being made to introduce some new and novel features for the entertainment of all who attend and take part in the race, and plans are under way to provide additional amusements for spectators.

The swimming editor, prodding by the spectators, has enlisted the assistance of other experts in that line to make possible a "Safety First" plan for babies accompanied by mothers who wish to see the great swimmer in action. The girls will be accompanied by their mothers to be indulged in by some of the oldest and New England's foremost swimmers.

BEST DATE SELECTED.

The date selected for the carnival is, according to swimming experts, the best for bathing purposes. They point to the fact that the temperature of the water is just what is needed for the swimmer.

Physicians have time and again referred to the fact that swimming is about the best exercise in the world. Every stroke of the hands and every movement of the feet while swimming in the water develops the body and causes the blood to circulate properly through all the arteries. That is why, they say, so many girls who make it a practice to engage in swimming sports have such nice rosy cheeks.

Now, swimming girls, get busy. Enter your names at once. Don't be haphazard.

East Boston to Have Two New Factories

Ground will be broken next week for erection of two factory buildings in Orleans street, East Boston, the purchase of about 40,000 square feet of land from the East Boston Company, which has been sold to the United States Oxygen Company, of which here from England with a million dollars to invest, is president.

Track-Walker Killed at Newton

Antonio Pico of No. 308 Auburn street, Auburndale, a track walker for the Boston & Albany, was instantly killed by an inbound express train near the West Newton freight yards.

3 Boston College Professors Leave

The list of changes in the faculty of Boston College announced reveals that the Rev. Ignatius Cox, B. J., is transferred to Woodstock College, Maryland; the Rev. John A. Steidler, B. J., goes to Brooklyn College; and the Rev. Henry M. Brock, B. J., to St. Andrew's-on-the-Hudson.

DOROTHEA PRENDER- GAST, ten-year-old girl of Providence, whose visits to church shrine have been fol- lowed by recovery from tuber- culosis.

PROVIDENCE, July 31.—Following four years of suffering with tuberculosis of the bones which affected her right ankle so that she was able to walk only with the aid of crutches, little ten-year-old Dorothea Prendergast of No. 102 Laverston street, has been cured. Her mother attributes the remarkable cure to the visits made by the little sufferer to the shrine at St. Ann's Church, Fall River. Mrs. Prendergast says that after the first visit, July 26, 1911, the child's condition improved. The visits were repeated, and sixteen months ago the child was able to walk without the crutches. These have been returned to the hospital now.

Simeon Ford Flees from 42d Street

NEW YORK, July 31.—Simeon Ford, for thirty years proprietor of the Grand Union Hotel, said on selling for Europe, "I want to get as far away from Fort-second street and Park avenue as possible, for I fear I will be able to pass that corner again without tears waiting to my eyes."

Ton of Cement Hits Man.
Voltaire Campbell, a foreman in the employ of P. Stuart & Son, Boston contractor, and living at No. 21 Berkeley street, Lynn, had three ribs broken when a ton of cement, in bags, became dislodged on the street's Ford car in Lynn today, and fell upon him. He is at Lynn Hospital and will probably die.

The new Sunday law will be put into a new store or loan money, turn in the Sunday Property to let the law be the Sunday American Real Estate section.

QUARETARO'S TAKEN BY THE REBEL FORCES

WASHINGTON, July 31.—News of the capture by the rebels of Quaretero, the last important Federal city north of Mexico City, today caused the Washington administration and members of the Congress to believe that Carranza will consent to an armistice, pending the peace conference at Saltillo.

Carranza's telegram to the Constitutionalists headquarters announcing the fall of Quaretero showed plainly that the rebels will not be stopped in the opinion of officials here because of the uncertainty of the stand General Villa will take relative to the peace chances of Villa, Carranza and his followers. It is said, do not want to take any chances of Villa, Carranza and his followers. Consequently they will continue their march on the capital so that the loyal forces of Carranza will be in a position to resist any hostile move Villa may make should Carranza consent to hostilities with the "first chief."

Arrangements are being made for the evacuation of the rebels in Mexico has proved a great disappointment to the Constitutionalists for it has been looking forward to a peaceful entry into Mexico City.

Attempt to Wreck Bankers' Express

NEW HAVEN, July 31.—An unsuccessful attempt was made to wreck the Bankers' Express on the New Haven road at Woodmont today. The train ran into a tie on the track, which was fastened at one end. It was seen by the engineer just in time to prevent a derailment. The passengers were given a scare by the sudden stop.

Kidnaper Given 25-Year Sentence

NEW YORK, July 31.—Benedetto Randazzo, thirty-two years old, was today sentenced to Sing Sing for 25 to 30 years for kidnaping five-year-old Giuseppe Giannone, son of Nicholas Giannone, a grocer. The boy was kept a prisoner for several weeks and a ransom of \$5,000 was demanded.

Tango Slayer Pays Penalty on Gallows

WHEATON, Ill., July 31.—Henry Spencer, the tango slayer, paid the penalty for the murder of Mrs. Mildred Allison-Huxford on the gallows here today. Involving the black cat, usually provided for murderers, the murderer went to his death entirely in white.

New Foreign Money Order Schedule

Plans for international money orders, particularly for small sums, are to be reduced, however, according to notice received at the local post office from Postmaster General Burdett. The new schedule makes the cost of money orders, proportionately the same for large and small remittances.

STRAUD WILL BE REGULAR IN BOX FOR THE BRAVES

The Braves have the greatest left-handed pitcher in the world. How Strained, Captain Evers, Secretary of the National League, today announced and sundry other experts admitted the truth about it. How Paul Straud.

Paul Straud is a familiar figure up around Ypsilanti street. He was with the team all last season. He never attracted a lot of attention, however. Mostly because he was seldom worked.

But he's going to be worked very shortly. In regular turn, too. And there'll be a lot of disappointment in the atmosphere up around the ballpark ball lot, if he doesn't come through.

Manager Stallings claims that the best youngster is just about now the sweetest looking young pitcher in the league. So claim Nickerson, Evers and all.

He always had the stuff, declared Manager Evers, but simply didn't know what to do with it. He was a little bit of a trouble maker, but he was a good pitcher. He was a little bit of a trouble maker, but he was a good pitcher. He was a little bit of a trouble maker, but he was a good pitcher.

STERLING ALE

What do you look for, friend, in your glass of ale?
WHOLESOMENESS
First, and purity. These you should find in any reputable brew. But the full round body that comes only with generous use of sturdy grains—the crisp grateful tang born of fine hops—a plenty—the swirl of natural life in each sparkling draught—these good things are brewed into Sterling as into no other ale.

Take your nickel to the blue and white tap. It insures ale satisfaction.
